DAILY TASK MANAGER

Test Case Inputs and Expected Outputs

Project No.	PS No. 41
Language	Python 3
Project File	one.py
Data File	tasks.txt (created automatically when tasks are saved)

Test Case 1 – Normal Input (Add Task)

Input: Select Add Task and enter a valid title, priority, and due date.

```
===== DAILY TASK MANAGER =====
1. Add Task
2. View by Priority
3. Show Pending
4. Complete Task
5. Exit
Enter your choice: 1
Enter task title: Submit report
Enter priority (High/Medium/Low): High
Enter due date (YYYY-MM-DD): 2026-10-15

Task added.
T101 | Submit report | High | 2026-10-15 | Pending
```

Expected result: The task is saved with a unique ID and Pending status.

Test Case 2 – Boundary / Minimum Input (No Pending Tasks)

Precondition: Start with an empty tasks.txt file or a fresh project state.

```
===== DAILY TASK MANAGER =====
1. Add Task
2. View by Priority
3. Show Pending
4. Complete Task
5. Exit
Enter your choice: 3

No pending tasks. You are all caught up!
```

Expected result: The program displays a message when there are no pending tasks.

Test Case 3 – Invalid Input

This test case checks three invalid inputs separately.

(a) Invalid Priority

```
Enter your choice: 1
Enter task title: Pay bill
Enter priority (High/Medium/Low): Urgent

Invalid priority. Enter High, Medium or Low.
```

(b) Invalid Date Format

```
Enter your choice: 1
Enter task title: Pay bill
Enter priority (High/Medium/Low): High
Enter due date (YYYY-MM-DD): 15-10-2026

Invalid date. Use YYYY-MM-DD.
```

(c) Task ID Not Found

```
Enter your choice: 4
Enter Task ID: T999

Task T999 not found.
```

Expected result: The program rejects invalid priority/date values and reports when the requested Task ID does not exist.

Test Case 4 – Different Valid Scenario

Starting data: Three pending tasks are available in the task list.

Task ID	Title	Priority	Due Date	Status
T101	Submit report	High	2026-10-15	Pending
T102	Buy milk	Low	2026-10-11	Pending
T103	Call bank	Medium	2026-10-12	Pending

(a) View by Priority – Option 2

```
T101 | Submit report | High | 2026-10-15 | Pending
T103 | Call bank | Medium | 2026-10-12 | Pending
T102 | Buy milk | Low | 2026-10-11 | Pending
```

(b) Complete Task T101 – Option 4

```
Enter your choice: 4
Enter Task ID: T101

Task T101 marked as done. Pending tasks: 2
```

Expected result: Tasks are displayed in High, Medium, Low priority order. After T101 is completed, two tasks remain pending.

Note: This PDF is a neatly formatted test-case output report based on the program's stated test scenarios. If your instructor specifically requires screenshots captured from the actual terminal, attach those original screenshots as well.
